

Year 8 Homework Timetable

Year 8 students are expect to do at least one hour of self-study each day. This will normally be done at home in the evenings or during the weekends, but on occasions students may find it easier or more convenient to do this study at school.

Year 8 students should have 2 subjects set homework of 30 minute length set per day

The timetable shows which subjects may ask for homework to be done on any particular day. This should prevent an uneven workload over the course of the school week
